# Controlled.

Finely adjusted blood flow ensures that penguins' feet never fall below the freezing point.

The Chim-A-Lator® prevents warm air from escaping through your chimney while it is not in use. Its six setting regulator controls the amount of draft when the fireplace is in use.

Stainless Steel  
Flue Extension

# Chim-A-Lator®

The Stainless Steel Adjustable, Top Sealing Fireplace Damper

The Chim-A-Lator® Deluxe easily mounts on top of a masonry fireplace flue and is operated by a convenient, adjustable regulator installed on the side wall of the fireplace. It is far more efficient than conventional cast iron dampers and the ideal replacement for old defective dampers. Proven for over 30 years to be the most trouble free top sealing damper.

Designed not to fall down in the event of a chimney fire

- Easy bolt-on installation
- Spark arrestor standard
- 4 ea. stainless springs
- Damper opens 6 inches

## Features

- 100% Stainless Steel
- 17 standard sizes
- Lifetime warranty – best on the market today.
- If within 30 days, you or your customer are not fully satisfied, return the Chim-A-Lator® for a full refund.
- Comes fully assembled for fast and easy installation.
- Six setting regulator controls the amount of draft to produce more heat when burning.
- Chimney fire tested with little or no damage to unit damper. Will not fall and block flue in the event of a chimney fire.
- Saves energy. Tight seal on top of the chimney, keeps heat in when fireplace is not in use.
- Prevents down draft smoking caused by wind.
- Keeps out animals, birds, insects, bees, rain, leaves, wind and airplane noise.
- Frequently recommended for airport noise abatement project

## Ordering Instructions

- 1 Measure outside of flue tile to order proper size. Each size of Chim-A-Lator® has 2.25 inches of adjustment.
- 2 Measure height of flue tile extending out of chimney. If this measurement is less than 1.25 inches, you will need a flue extension.
- 3 Estimate length of flue. If longer than 30 feet, request longer cable when ordering a Chim-A-Lator®.
- 4 Note if chimney has an offset at bottom of flue. Chim-A-Lator® shipped with 7 feet of cable casing to protect cable at rub points. If offset is higher than 7 feet order a longer piece.
