

Bernard Dalsin Manufacturing Product Announcement

Deluxe Termination added to the Bio Vent® Product Offering

Bernard Dalsin Manufacturing introduces a Deluxe Termination to the Bio Vent® product offering. The Deluxe Termination incorporates the fresh air intake as part of the last section of Bio Vent pipe.

As with all Bio Vent components, the Deluxe Termination's inner flue is made with AL-294C, super ferritic stainless steel that can withstand exhaust from bio-fuels that can cause extensive corrosion in other types of stainless steel commonly found in competitors' vent systems. The outer wall of this component is also made of AL-294C.

This new Deluxe Termination also uses our gasket-sealed connection. This exclusive pre-installed gasket installs in a fraction of the time of other conventional venting products and eliminates the possibility of leakage at the connection point.

Tested and listed with Omni Laboratories. 10 year warranty.

Order #	Description	Carton Qty
71440203	3" X 24" Bio Vent Deluxe Termination w/ 2" Collar	6
71440204	4" X 24" Bio Vent Deluxe Termination w/ 2" Collar	6
