

# Bernard Dalsin Manufacturing Product Announcement

## Bio Vent Pipe to Flex Adaptors and Bio Vent Flex added to the Bio Vent® Product Offering

The Flex to Bio Vent Adaptors will connect the Bio Vent pipe to our “Dalsin Line” stainless steel flexible liner product for use in a masonry chimney.

As with all Bio Vent components, these adaptors’ inner flue is made with AL29-4C, super ferritic stainless steel that can withstand exhaust from bio-fuels that can cause extensive corrosion in other types of stainless steel commonly found in competitors’ vent systems.

These new adaptors also use our gasket-sealed connection. This exclusive pre-installed gasket installs in a fraction of the time of other conventional venting products and eliminates the possibility of leakage at the connection point.

Tested and listed with Omni Laboratories. 10 year warranty.
