

Bernard Dalsin Manufacturing Product Announcement

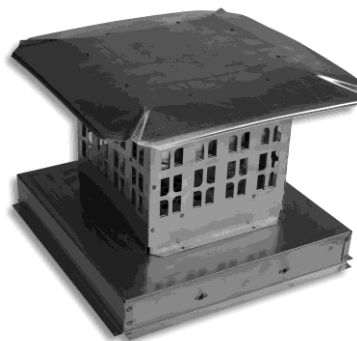

Pro Form® Termination Cap With Frame added to BDM Product Offering

Bernard Dalsin Manufacturing introduces a new product addition to our Pro Form® Direct Vent product line. This new termination cap will provide ultimate curb appeal with a Stainless Steel optional frame available in 8x8, 8x13 and 13x13. These caps are also available with either a black or copper powder coating option.

The termination caps have been designed to perform in the most adverse weather conditions with air and water diffusion technology. The flexible direct vent Pro Form® pipe is ideal for horizontal corner, and up and out applications as well as venting up a wood chase.

Tested and certified by Warnock Heresy for direct vent appliances.
