

# Bernard Dalsin Manufacturing Product Announcement

## 1" Clearance now available in the Bio Vent® Product Offering

Bernard Dalsin Manufacturing proudly announces that Bio Vent has been tested and approved for 1" clearance to combustibles.

It is important to note that Bio Vent pipe has simply been tested and approved for 1" clearance. With the exception of the parts listed below the pipe itself has been unchanged. The only difference you will notice to the pipe will be the label stating 1" clearance vs. 3" clearance. The framing dimensions for wall and ceiling thimbles / firestops have changed and been reduced to:

### New 1" Clearance Framing Dimensions

3"	6 1/2" x 6 1/2"
4"	7 1/2" x 7 1/2"

### 3" Clearance Framing Dimensions

3"	11" x 11"
4"	11" x 11"

Wall and ceiling thimbles for 3" clearance will still be available for a limited time. Please contact BDM for full details and updated Installation Instructions.

Tested and listed with Omni Laboratories. 10 year warranty.
