

## PRE INSULATED STAINLESS STEEL FLEX LINER AND KITS

Bernard Dalsin Manufacturing is now offering pre insulated flex liner and kits to our Light Stainless Steel product line. No more struggling on the job insulating your liner. Our pre insulated liner is made with ½" insulation, inner material is our durable .006 (316 stainless steel), the outer is made with ultralight .005 (316 stainless steel). This is the #1 new product of 2015.

**Available in: 4", 5", 5.5", 6" and 8" diameters.**
