Preferred Customer Program

At BDM, it is our belief that our customers' success is the cornerstone of our own success. In the hearth business everyone knows that products and services are becoming ever competitive and that the best way to stay ahead in a competitive environment is to offer "value added" benefits to the end user. When you become a preferred customer at BDM that "value added" philosophy is a little easier to accomplish. That is because we strive to offer true value to you, our customer, which in turn will allow you to bring added benefits to your customer. You see, we look at each individual customer and attempt to build a relationship with them. One that is mutually beneficial to both BDM and the customer. We accomplish this with straight forward and honest communication, technical support, preferred buying programs, product support and materials, and fast, courteous customer service.

Any supplier – customer relationship starts out with both parties understanding each others expectations. This Preferred Customer Program details some of the things that you can expect from BDM and in turn what BDM asks of you, our "preferred" customer.

Value Added Benefits

Free freight program

All BDM products ship free on orders \$600.00 and above to anywhere in the lower 48 states, shipped to one location. Any order under \$600.00 shipped to the lower 48 states will ship for a fee equal to 15% of the invoiced amount. This means the most you will ever pay for freight any order is \$90.00. This standardized shipping model makes it easy to save on freight. And when you do have a small order, it's simple to compute your freight costs. *Example: You need a box of (4) Pro-Form elbows immediately. Your dealer cost is \$104.00 and your freight is \$15.60 (\$104.00 x 15% = \$15.60). Simple and cost effective!*

Locked-in preferred pricing structure for an entire year

When your yearly sales orders meet one of our preferred customer levels your price structure is locked in for a full calendar year. See preferred customer incentive schedule in this program.
